

Manual Tasks

Disability Services Core Skills Training

Aim

The Manual Tasks Program addresses the specific tasks undertaken by Disability Services staff. It includes a strong focus on risk and hazard assessment, self-awareness and responsibility of individual staff in the context of manual tasks and safe and appropriate physical postures and movements for a broad range of tasks.

Target group

Department of Communities staff working in Disability Services.

Training for

Staff (Disabilities)

Content

The content is aligned to the WorkSafe WA - Manual Task Code of Practice 2010 and training will be conducted as competency based training; this means all participants must complete assessments throughout the workshop to evidence they are competent.

Modules

1. Take 5 Hazard Management Approach
2. Postures, Practices and Workplace Ergonomics
3. Home and Community Access
4. Transfers
5. Hoisting
